Subject: Talked with Scott Perry- DEP

Talked with Scott again after the Doctor called with patients complaining about BTEX, arsenic, and barium in the water.

Ex. 5 - Deliberative

Ex. 5 - Deliberative He was going to call the Doctor and get more information from him about the results. Scott did say that some residents were complaining about the quality from the water buffalo but should not be bathing with their well water! The Doctor said the water was removed last Monday and Scott said that should not be happening.

Ex. 5 - Deliberative

Scott said he'd get back to me with any updated lab results and I offered again any assistance we could for lab support, etc.

Karen D. Johnson, Chief
Ground Water & Enforcement Branch
